

KeyKeeper WB Wallmount

A Wall Mounted, Wide Bodied KeyKeeper for larger volume key drops

KeyKeeper WB Wallmount offers all of the security features of our KeyKeeper family in a mid-sized range for larger drop capacity. The larger sized drawer will accommodate two keys, fobs and tags for larger key drop volume, and the large depository means more room for securely holding deposited keys. A new mounting plate design allows for secure fastening to any wall type, in a variety of configurations. KeyKeeper WB Wallmount ships pre-assembled in one box, and is easy to install onto any type of wall.
