

# KeyKeeper WB Withstand

**A Freestanding, Wide Bodied KeyKeeper for larger volume key drops**

Larger drop drawer allows for two keys, fobs and tags

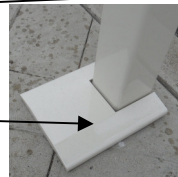

Front fascia graphic panel

Deep set puck lock is sheltered from elements and protected from theft attempts

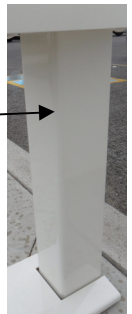

Larger Protective Cowl

New footplate cover conceals mounting hardware

Reinforced Heavy Duty plate steel base

KeyKeeper WB Withstand offers all of the security features of our KeyKeeper family in a mid-sized range for larger drop capacity. The larger sized drawer will accommodate two keys, fobs and tags for larger key drop volume, and the large depository means more room for securely holding deposited keys. A new footplate cover conceals mounting hardware for a clean appearance at the mounting point. KeyKeeper WB Withstand ships pre-assembled in one box, and is easy to install onto any concrete mounting base or sidewalk slab.
