# KeyKeeper XL Features

KeyKeeper XL is a perfect fit for any business that requires unsupervised key drops after business hours. The unique features of KeyKeeper XL offer many benefits; the two most important being increased customer service which leads to higher sales revenue and peace of mind for you in knowing that your customers' or your own cars are protected from theft.

"WE HAD A KEY DROP SYSTEM BEFORE, BUT WE WANTED A PROPER, PROFESSIONAL KEY SECURITY SYSTEM. KEYKEEPER XL IS THE BEST SYSTEM WE'VE SEEN."

- MARK MCKAY, SERVICE MANAGER  
COOKSVILLE DODGE CHRYSLER

The security features of KeyKeeper XL give you unprecedented protection from theft attempts - once a set of keys is deposited into the KeyKeeper XL, they can only be retrieved through the secure cabinet inside your building. KeyKeeper XL is easy to install, durable and virtually maintenance free.

## Some of the security and construction features of the KeyKeeper XL include:

Fabricated using all 1/4" and 3/16" plate steel for superior strength

Durable nylon handle is designed to break away during a theft attempt and is easy to replace.

Service envelopes are stored inside drawer for convenience. Drawer is used as a writing surface.

Drop slot is gated so that deposited keys cannot be accessed from outside. Other security features prevent fishing, prybar or hammer attacks as well as other theft attempt types.

Puck lock is easy to use, easy to change and gives you superior security.

Interior cabinet has 1/4" plate steel back with reinforced door and frame designed to withstand the most aggressive theft attempts.
